ROCKFLEET - A FIXED GPR SOLUTION IDEAL FOR DAY FISHERS

RockFLEET by Pivotel is a fixed GPR solution that is ideal for day fishers who want an affordable and installed satellite based solution to meet their GPRS obligations. Once installed and connected to vessel power RockFLEET will automatically work away from port so you don't need to remember to turn it on and off or keep batteries charged.

RockFLEET is a waterproof and ruggedized solution that meets the GPR requirement being introduced by Fisheries New Zealand delivering a robust and simple tracking solution. Use your RockFLEET alongside a low cost internet based Electronic Catch Reporting Solution such as eCatch (*https://ecatch.co.nz/*) to meet your full NZ MPI reporting requirements.

RockFLEET by Pivotel has a low upfront purchase price and is simple to install and operate. Pivotel's low running cost of just $60 plus GST per month covers the cost of satellite airtime, submission of the GPR data to MPI, as required under the regulation, and access to Pivotel's online Tracertrak portal, which provides real-time and historical location information to the licence holder.

RockFLEET offers two mounting options, a deck mount that allows mounting to a flat surface (included), or a pole mount to affix the terminal to a rail (sold separately).

PRODUCT DETAILS

- **Powered by**   9-30v DC with integrated backup battery
- **Transmits using**   Iridium satellite network
- **Size**   130 mm (D) | 50 mm (H)
- **Weight**   350 grams
- **Tracking interval**   Every 10 minutes while powered and away from home port
                          Every 24 hours while in port or unpowered

WHY PIVOTEL?

- Dedicated team of satellite experts based in New Zealand here to support you
- Affordable hardware and subscription with suspension option available when not required
- Meets the NZ MPI GPR tracking regulation

OPERATING COSTS

• Monthly Access Fee - Unlimited 10 Minute Tracking (Minimum contract term is 12 months)	**NZ$60 ex GST**
• Monthly Fee While Suspended (No Reactivation Fee)	**NZ$10 ex GST**

HOW IT WORKS

Pivotel RockFLEET plans use the Iridium Mobile Satellite Network. Satellite reception limitations and some exclusion zones apply. Prices exclude NZ GST and are subject to change. Visit www.pivotel.co.nz/iridium_nz_coverage for a coverage map. A compatible Iridium satellite device must be purchased from Pivotel to access the Pivotel Iridium satellite GPR service (see device pricing). Pivotel may apply call barring where fraudulent use is suspected or for credit control purposes. You will receive a bill by email from Pivotel listing any payments you have made during the billing period, and a summary of your service usage to enable you to keep track of your overall service usage and monthly spend. Itemised billed and unbilled service usage is available in the secure Selfcare website at www.pivotel.co.nz/selfcare. An itemised bill listing all of your service usage events is available on request. Pivotel plans are available to credit approved customers only. Minimum contract term is 12 months with a maximum of 6 months on suspension over the 12 months. If you suspend your service during the minimum term, your minimum term period will be extended equivalent to the number of months your service is in suspension. Minimum cost over 12 months is NZ$720 excluding GST per RockFLEET service subscription. The billing cycle is a calendar month, you may receive a pro rata access fee on your first Pivotel bill, calculated from the actual date of service connection to the date of your first bill.

NEED A PORTABLE GPR SOLUTION?

RockSTAR is a reliable long-life battery powered, portable Iridium solution that is designed to go wherever you do. The RockSTAR meets all of the NZ MPI GPR regulatory requirements and offers the same Tracertrak connectivity as RockFLEET.
